CAREER OBJECTIVE

Currently in my third year of computer science. with experience working across the full stack of software development. Looking for a role where I can grow and learn from experienced team members while drawing on project experience I have already successfully executed.

WORK EXPERIENCE

Development Intern

IntelliEvent

January 2023 - August 2023 / Monterey, CA

- Developed in-house web applications using Node, React, and HTML/CSS that allowed employers to manage and make custom reports.
- Gathered user requirements, and built and maintained code for the tool, saving Developers 10 monthly hours in labor.
- Collaborated with 3 interns and seniors to brainstorm and implement ideas and feedback into app's front-end development.

PROJECTS

Fluid

Front end development intern / Member

- Contributed to downloadable software used to buy gaming consoles, graphics cards, trading cards, and other retail items. - Order multiple items to keep or resell -Operates on a variety of different websites and retailers.
- Contributed to an active community of 50+ paying members, reached 4,000\$ in profit in 2 months.
- Implemented front-end optimizations and features that boosted user engagement by 14%, enhancing overall user satisfaction and software adoption rates.

Yellow Jackets

Social Chair

April 2022 - Present

- Developed and hosted a website for the "Yellow Jackets" intramural sports team using HTML, CSS, and JavaScript, leveraging GitHub for version control and deployment.
- Organized club events where members spent 2 hours bi-weekly talking and checking up on one another.
- Partnered with photography majors to attract 12 active members to the club in the first year, using Instagram and twitter.
